Vision

To be eminent global brand providing complete, innovative, invincible quality pumping paraphernalia under one roof.

Mission

We are committed to manufacture products complying with the best quality standards of the world.

We strive to create an environment that nurtures youth and nourishes the experienced.

On the bedrock of ethics, Duke is instituted by amalgamating the best practices & technologies of the world.

Values

The values that guide us are Trust, Ethics, Integrity, Discipline and Performance.

We are a team force

While energy is indispensable for household chores and agribusiness, its scarcity poses a threat to human progress. Duke Plasto Technique Pvt. Ltd., therefore, reinvents newer ways through implementation of energy efficient pumps and pipes. These devices ensure progress, profitability, and eco-conservation.

Established in 1989 by Shri Prabhudas Patel, Shri Shantibhai Patel, Shri Dineshbhai Patel and Rameshbhai Patel, Duke Plasto Technique Pvt. Ltd. started as a dream to provide quality pumping solutions across the globe. Today the dream is a global reality.

Duke offers a wide range of high quality products, inspiring the lives of millions world over. Our constant endeavour to work in tandem with our customer's needs, while implementing the most advanced technology, supported by our technical expertise and three decades of experience, has earned us the trust of all our valued customers.

QUALITY

Quality Certification & Awards

Our Quality ensures long term prosperity

Delivering a long term prosperity and exponential growth, by delivering efficient solutions is a result of the supreme quality ingrained in the vision and in each process of the production.

we believe in quality

The supreme quality ingrained in the vision as well as in each process of the production has helped us deliver long term prosperity and exponential growth.

At Duke, we believe in quality. We, therefore, adhere to the most stringent quality check at every stage of our production process. Every product at Duke undergoes an array of energy efficient test, before coming out of the plant. Quality Assurance at Duke is backed by team of well qualified and well trained engineers. Their immaculate inspections & judgments are well complemented by our high performance raw materials and our top class technologies.

In our pursuit to maintain the highest quality standard, we partner only with quality minded product manufacturer for raw material as well as technologies, before reaching the manufacturing process. The raw material undergoes series of stringent tests performed by quality inspectors.

Our fully automatic testing laboratory confirms the quality of the final product. We also conduct inspection from certified agencies such as EQDC, BIS, ERDA, CIPET, RITES, SGS, and EIL to ensure the highest level of quality.

We strictly adhere to the various national & international norms & standards like ISI, ASTM, CE and ISO.

The special cell for SPC and SQC at our quality control section analyzes day-to-day data to make our product qualitative.

Research & Development

bring out excellent

At Duke, learning is a continuous process. With this in mind, we set up our own ISO certified Research and Development unit, which integrates technology, understanding of the market and consumer needs and demands, to bring out excellent, effective & efficient designs. Our R&D department is equipped with the latest Electrical & Mechanical design software with CAD-CAM facilities.

Our special Electrical and Hydraulic-testing laboratory develops & tests products for efficiency. A highly-skilled team of Mechanical, Electrical and Hydraulic Engineers work round the clock to manufacture products of the highest quality.

We Foresee

better value for a better world

While we are already moving ahead with the evolving needs of our customer and environment, we at Duke Plasto Technique Pvt. Ltd. foresee a world of uncompromising quality that will benefit our customer with some of the cutting-edge technology.

We look forward to a world with no bounds, where our products and services flow in with ease, which is heralded by our adherence to international quality. In the future, we envisage expanding our product range to provide a complete range of water solution that benefits the environment in better ways too.

At Duke, we also look into the future as a major player with exceptional Corporate Social Responsibility policy to emerge as a responsible organization.

Our Services

answer to your needs for efficient growth

We have a specialized team of customer service provider which comprise of the most qualified and experienced technocrats; they cater to every technical as well as non-technical assistance for our customer's delight.

CRM Our World of Happy Customers

where the customer is king

At Duke, we believe that our valuable relation with our patrons begin once we deliver our products, because we value our customer's needs in understanding, and also in maintaining our products.

Care provides the key to unlocking our potential and making it real.

It is our attentive assistant that makes our work illustrious. Our thorough and careful inspection at each phase of production ensures that our products are of the finest quality.

We have a specialized customer care section, equipped with a team of qualified & experienced technocrats, who always stand available to serve customer up to their utmost satisfactions & see to all of their complaints, which is very rare.
